For more information please call (773) 292-8363
In your community. Here to Help

NAH encourages you to join us in:

1. Washing our hands thoroughly for 20 seconds, with soap and water.
2. Avoiding touching our faces.
3. Following the advice of public health officials.
4. Practicing social distancing by standing 6-feet apart from others and wearing a mask or face-covering when we have to be in public spaces.
5. Using hand sanitizer containing at least 60% isopropyl alcohol, when we can’t wash our hands.
6. Staying home, and practicing ‘self-isolation’ when we are unwell or show signs of sickness.
7. Contacting our primary care providers by phone or electronic messaging system (such as the Athena Portal) ASAP for personal guidance. Many providers, including those at NAH, are conducting telephone or virtual appointments to ensure our families receive the health care we need while avoiding unnecessary exposures.
8. Staying informed! We encourage everyone to use reliable sources.
